Season for Amateur Baseball Opened

The youngsters officially opened the baseball season Saturday, Mar. 29, which is nearly ten days earlier than last year. The "Steam Rollers" and the "Cellar Rats" had a noisy scrimmage in which the Steam Rollers chased the Rats off the field with a score 14 to 11. For some reason there was a scarcity of youngsters and only five positions were occupied on each team.

Line-up and scores: Steam Rollers, E. McKay, p, (5); P. Brown, lb, (3); R. McAlister, 2b (2); M. Lovejoy, 3b (2); V. Brown, c (2), total 14. Cellar Rats: K. Goodwin, p (4); G. Parkes, 3b (2); S. Murch, 1b, (2); E. Emerson, 2b (2); C. Ruff, c (1), total 11 scores. Umpire, R. Kilgore.

M. A. Bancroft and Capt. Mel W. Sampson entertained Harry Wilkinson and H. C. Chase of Boston at the Terrine camp over the week end.

Capt. Sampson is over hauling his motor boats and painting canoes, making ready to launch his fleet the day the ice leaves the lake. The auspicious date is April 18, according to the Captain's dope.

Mrs. Mary Witt will work at S. W. Goodwin's insurance office during the summer.

John C. Shepard has sold one-half interest in the bulk of his estate on Crockett Ridge to his son John, "Ned," E. Shepard. Conveyance includes parcels on both sides of the highway and the well known "Shepard's Camps" on the shore of Lake Pennesseewassee. Entire title is granted to one acre near the home place, boundaries to be decided later. The homestead dwelling with one acre of land is not included in the transfer.

Mrs. Lenora Henderson of Auburn was the guest of her parents, Mr. and Mrs. F. C. Smith, Sunday.

Capt. Mel Sampson: "More inquiries for camps have come to me this spring than at any time in my thirty years about the lake. According to advises, camp owners are coming early and stay late."

O. P. Stineford, successor to L. I. Gilbert, has secured a rent at A. C. Hollingsworth's, Cottage Street, and moved his family here from Mexico.

Corporation caucus at Engine House Hall Friday evening, April 4, at 7:30 o'clock. All citizens in the village should make an effort to be present.

A thunder shower during a snow storm was a freak weather condition Sunday morning. In the midst of small frozen "pills" came several flashes of lightning and lowering temperature produced a regular snow storm for several minutes. Enough snow arrived to whiten the ground.

An orchestra of eight pieces led by Howard Shaw with Ruth Akers at the piano and recruited from Amateur musicians in town, played during the movie program at Rex Theatre on Monday evening. Their music added greatly to the pleasure of the entertainment. The orchestra will be enlarged and again appear at an early date. The first of the Norway Frolics will be held next Monday evening, April 7, at the first show. Several good vaudeville acts from Norway and other towns will appear. Five dollars in gold wil lbe presented the act drawing the greatest applause.

A New England blizzard from the northeast passed this way Tuesday night and part of Wednesday. Some eight inches of snow kicked into drifts is one big April first joke after a period of bare earth and that annual Mayflower feeling. Snow shovels were brought from storage and numerous sleighs appeared on the streets. The youngsters returnd to skis and snowshoes while marbles and baseballs enjoyed a temporary vacation.

The public whist party will be held Saturday evening with Mrs. S. B. Cummings at her home on Main Street. Playing will begin at 7.30. The ladies will bring a plate of light refreshments.

Shaping Up for Summer Baseball

Billy White, player-manager of the Twin Town Baseball Association, has been broadcasting from his pool room under Beas Tavern for players and a good start for a line-up has been made.

Applications are pouring in and it appears to be a survival of the fittest. There will be little trouble collecting a solid team if the present heavy mail indicates anything.

Contracts have been clinched with Jimmy Robinson for short-stop, Bill Kneeland as catcher and Henry "Lifty" Beck for the pitching staff. Walter Peel, the first sacker and Bob Perry in left field are expected to sign up. These are all our last season's friends and will be received with open arms. Ralph Knight, that dependable hurler, will enter the Boston Twilight League and cannot be secured at present. Manager White confidently expects to land "Pip" Kennedy but this deal is not sure.

A new third sacker has been signed, John Merriman, who played short stop with Dixfield in the Tri County League last season. His splendid work is too well known for extended comment.

Negotiations are progressing for Henry Thomahlen formerly a hurler with Albany, N. Y., and Sherbrooke. He worked on the Twin Town team in one game when Dave Masterman was manager and made a good impression in the box and at swinging the willow. Other high grade pitchers are on the line and a landing is expected within a few days.

The diamond at County fair grounds will be put into first class shape and made very fast. Beechers along the side lines are to be set back some fifteen feet, allowing additional working space at the corner sacks. New benches for players will be provided and other improvements made.

The situation thus far is encouraging and a long run of summer baseball is predicted. No great display of sentimental gush is noticeable, but subscriptions are easily obtained. Citizens take the matter in a business way and have joined the procession of workers as a part of the spring's activities. All live ones are united in the belief summer baseball solves a big problem in our community, especially questions concerning the welfare of aimless boys. Advertising the town with a hard working and respectable ball club is considered a profitable investment, reflecting credit to a wide awake business center.

Indian legends were told and the DuPont crow situation was discussed. The party crossed to the long woods and home, making a five mile tramp and reported partridge, black duck, crows, chickadees, pilliated woodpecker, robins and bluebirds.

The next walk will be April 19 with headquarters for the day at the Brown House.

True Story of Lamb Chops

I recently called at a market and asked for lamb chops, good ones or none at all.

The young man addressed hesitated and apparently was to say they had none.

The manager spoke to him in a low tone saying, "we have some hanging in the refrigerator."

A back bone with ribs attached of an old dried up sheep was brought to the block.

The young man naively asked if I liked it "cut thick or thin."

I didn't know and requested it be cut in the usual way. It was done.

Six ribs with meat and paper weighed 14 ounces and 50 cents was paid. You should have seen and heard the housekeeper cackle when she attempted to cook it the next morning. She knew what it was, I didn't.

Modern sole leather could be cooked as tender as this first class, choice bit of lamb.

Did the meat man play a joke on us? We think he did.

The "lamb chop" was boiled three or four hours and a soup was made hence it was not a complete loss.

On April 2 sidewalks were broken out with a snow plow after the most severe storm of the winter.

The American Legion Minstrels will appear at Norway Opera House on two evenings within a few weeks. A bang up good show is being rehearsed and the quality will no doubt measure up to the high standard of past years. Some clever stunts and novelties are to be offered.

He married Elizabeth Rice of North Waterford on January 17, 1882 and in 1887 the family moved to Norway where they have since resided. For a number of years he was associated with "Jack" Swan and they conducted a photographic studio in the village. Ernest F. Ray

After two years of poor health resulting in despondency, Ernest F. Ray, aged 42 years, committed suicide with a razor at the home of his mother, Mrs. Ida Ray, Saturday forenoon, March 29. He was discovered in the act of slashing his throat by his mother who was unsuccessful in her attempts to stop him. He passed away in her arms before a physician arrived.

Mr. Ray was born in Waterford Nov. 16, 1881, the son of Frank and Ida Ray. His father died several years ago and the family moved from a farm in North Waterford to Norway village. They had resided here about two years. Mr. Ray and his mother lived in the upstairs rent and a brother, Samuel and family, occupied the first floor in the former Hayes house on Pine Street.

The deceased is survived by his mother, one brother and one sister, Mrs. Robert Kimball of Norway.

D. Kilgore. Refreshments were served during the evening.

NORWAY SAVINGS BANK

Proves That a Small Municipality May Be a Good Savings Bank Town

There are some who profess to believe that a mutual savings bank, situated in small town, has slight hope of being able to do more than hold its own. When the statement of a savings bank situated in a Maine town of less than 5,000 inhabitants came recently, to hand, it gave an opportunity to test the accuracy of such doleful wailings.

The bank is the Norway Savings Bank of Norway, Maine. On March 1, 1923, it had total deposits of $1,196,935. A small bank from the city bankers' point of view, but it will be well to suspend judgment for a few moments, until the facts are brought out.

Back in January 26, 1920, the same bank had a total of $805,723. in deposits. It has, therefore, gained about 33 per cent. in deposits, during the four years, or a little better than 8 per cent. per year. This is not far from the average, for 1923, of the states making the greatest advance in that year, which is conceded to be the banner period for the mutual savings banks. Here, then, is a country bank, which has kept abreast of the procession, when many a city bank, with a teeming population to drawupon, has fallen back.

In spite of the high rate of growth, the bank maintains a reserve and undivided profits fund of $98,226., or 8 per cent. of the total deposits. This fund supplements a list of assets which appear to meet the high standards imposed upon mutual savings banks, and which are, therefore, ample security in themselves.

We suspect that the situation in Norway, Maine, is not more favorable than in many a small town but we believe that Treasurer G. L. Curtis, his officers and trustees have employed wisdom and optimism, and have been rewarded with success.

Collegians 23; Town Team 21

South Paris Town Team was forced to its limit, Friday evening, in a battle against the Lewiston Collegians at the high school gym. The home team lost by a narrow margin but not until the spectators witnessed one of the snappiest affairs staged here this winter. Honors were about even.

"Bill" Ledger and Small led the Collegians at the hoop while MacDonald and Hubbell were high basket weavers for the town team.

Both outfits played inside stuff with snappy passing and clean work to their credit. Principal Carl Fuller and Sub-Master "Dave" Masterman were in their elements and proved baseball is not their only stronghold in athletics.

OUT OF THE GLOOM

Many a Gloomy Countenance in Norway Now Lightens With Happiness

A bad back makes you gloomy.

Can't be happy with continued backache.

The aches and pains of a bad back are frequently due to weak kidneys.

Doan's Pills are recommended for weak kidneys. Ask your neighbor.

So Norway citizens testify.

Mrs. Orville Palmer, Lower Main St., Norway, says: "I was suffering from disordered kidneys. My back was painful and it made me restless at night. I was dizzy and everything seemed to turn around in the room. My kidneys didn't act regularly. Doan's Pills had been used in the family with benefit so I decided to go to Clark's Drug Store and get a supply. After using two boxes, I was all right, so I gladly recommend Doan's."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Palmer had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

IS THE KU KLUX KLAN 100% AMERICAN?

There is much in the creed of the Ku Klux Klan that makes an appeal to the average American citizen. Certainly no loyal American should be asleep to the dangers that threaten this country of ours and we are not doing our duty by our country unless we go to the polls, and in Municipal, State, and National elections vote for what we sincerely believe is best for all.

Now if the Ku Klux Klan stands for the whole of America, and impresses upon its membership the duty of using the ballot for the highest good of all, no doubt it can accomplish many reforms. If, however, it allows itself to become the tool of those who would use it for the purpose of stirring up religious and racial intolerance, it will fail to accomplish any good, but, on the contrary, will make more difficult the rightful solution of the great problems before us.

The writer was recently handed a copy of a newspaper published in the Middle West, from all indications a staunch Klan supporter. From front page to back it was one continued attack on the Catholic religion, and the language used would make anyone who even pretends to be a Christian blush with shame. Was this 100% American? Can religious intolerance be any part of an American's creed?

We have in this country several millions of colored people. Torn from their homes in Africa and brought to this country as slaves in the early days, it was not until the close of the Civil War in 1864 that these unfortunate people had a chance to develop themselves as Americans. Yet, within the few short years since the war, this race has made remarkable progress, rising from a state of complete ignorance until, today, great numbers have become educated, industrious, patriotic American citizens, a credit to the nation that is their home.

Hiram W. Evans, Imperial Wizard of the Ku Klux Klan, in his address at Dallas, Texas, says, however, "The Negro cannot attain the Anglo Saxon level because of the low mentality of savage ancestors, and the experience of centuries confirms this conclusion" He furthermore states that Jews, Catholics and Negroes do now, and forever will, defy every requirement of assimilation. Is this statement 100% American, with the facts to back it up, or is it just plain racial and religious intolerance?

In regard to the Jews, it is true, no doubt, that some of them who have acquired great wealth abuse its power, but is it not also true that many other people of wealth who are not Jews have abused its power? Some of our finest American citizens are of Hebrew racial stock. Is it just or fair to judge Jews, Catholics and Negroes by their worst element? Even Protestants would fare badly if judged by their poorest representatives.

There is a good and bad element in all races and in all religions, but in the wholesale denunciation of Catholics, Jews and Negroes, it seems as if the Ku Klux Klan were departing from the very first principles of Americanism.

The real struggle is not, and never will be between Protestants and Catholics, between the white and colored races, or between Gentile and Jew. The real struggle is between the forces of right and the forces of evil, and the forces of right need the good men and women of every race and of every religion. No honest person if he stops and thinks, can deny the fact that there are splendid men and women in all religions and in all races. What we need more than anything else is to unite these forces for good rather than divide them.

All that religious and racial intolerance has ever done is to stir up a little more hate and bitterness where love is so sadly needed, and to cause the worst wars and blackest crimes that stain history's pages. It has never contributed a single item toward making this old world better.

Religious and racial tolerance are the foundations of the American constitution. Among our great leaders, perhaps none stood more solidly for these first principles of Americanism than Theodore Roosevelt. He maintained that every citizen, whether Protestant, Catholic, Jew or Negro was an American and should be treated as such, unless he had clearly proven unworthy of the name. Is there anything to prove that the great majority are not patriotic Americans?

Let us not forget that there were thousands of Catholics, Jews, and colored boys who made the supreme sacrifice for their country on the fields of France. Were they not Americans in the truest sense? Are the fathers and mothers of those boys to be classified as un-American because of their religion or race?

Let us all go to the polls at each election, vote for the right and against the wrong as we understand it, but judge our fellow man by his own individual proof of Americanism. Let us love our neighbor as ourself, whether that neighbor be Catholic, Protestant, or Jew. Let us do unto others as we would be done by, and in so doing we shall do more to correct the evils in this country than by all the racial and religious intolerance that can be stirred up.

America, more than any other nation, should be the land where religious and racial hatreds die and the glorious brotherhood of man become fully realized. In the words of Dennis McCarthy:

"This is the land where hate should die,
No feud of faith, no spleen of race,
No darkly brooding fear should try
Beneath our flag to find a place.
Lo, ev'ry people here has sent
Its sons to answer Freedom's call,
Their life blood is the strong cement
That builds and binds the nation's wall.
This is the land where hate should die,
Tho' dear I hold my faith and shrine,
I serve my country well when I
Respect beliefs that are not mine.
He little loves his land who'd cast
Upon his neighbor's word a doubt,
Or cites the wrongs of ages past
From present rights to bar him out.
This is the land where hate should die,
This is the land where strife should cease,
Where dark suspicious fear should fly
Before our flag of light and peace.
So let us purge of poisoned thought
That service to the state we give
And so grow worthy as we ought
Of the great land in which we live."

—Ralph M. Bacon.

MARRIED TWELVE YEARS BEFORE BABY CAME

Gladly Recommends Lydia E. Pinkham's Vegetable Compound

Louisville, Nebraska.—"I was married twelve years before my boy was born. I had a lot of female troubles and had been treated by a physician for them but they continued much the same. Then I read your advertisement in the newspapers and thought I would give Lydia E. Pinkham's Vegetable Compound a good trial, for if it had helped others, why not me? I have taken 36 bottles of the medicine and am never without it in the house. My baby boy is three years old now and I sure am happy since I got relief from my troubles. When any one has troubles like mine, or any ways like mine, I am always glad to recommend the Vegetable Compound so that they will get the right kind of medicine."—Mrs. JOE NOVAK, Box 662, Louisville, Neb.

A Well-Planned Garden

GARDENS THAT PRODUCE RESULTS

The Amateur Gardener is Lured Back to the Soil by Thoughts of Spring

By Seth W. Shoemaker, director, School of Agriculture, International Correspondence Schools, Scranton, Pa.

Gardening is a favorite pastime to many and a source of considerable income to people in all walks of life. Is your garden producing an income and better health for you? Have you ever thought of the possibility of making an attractive as well as profitable garden in your backyard?

Many backyards will yield as much as $100.00 worth of vegetables in a season. Few gardens will yield less than $10 to $20 worth.

Perhaps equally as important, there is health to be dug out of the soil. The digging will produce an appetite and the results of intelligent digging will supply the means to satisfy the appetite.

There is nothing mysterious about this process and nothing especially difficult except the inclination or ability to put a little time and effort into the work.

Many gardners are discouraged by the condition of their soil, but many conditions that are considered unfavorable are not really so bad as they seem and it is more a question of adapting the soil to the vegetables or of planting the kinds of vegetables that will do well on the soil you have than it is to be discouraged in the matter.

In planting any garden, unquestionably the first thing to do is to start with a paper and pencil. Much time, some backache, and many heartaches will be avoidedby simply making out a plan that may be systematically followed.

Many gardens are spoiled by yielding to the temptation to rush ahead and buy seeds at the corner grocery or from some alluring catalogue without having any definite idea of just what is required.

The beginner will be wise to confine his garden to paper for the first few days.

Gardening on paper merely consists in making a diagram of the garden to be, including those vegetables which you would like to have and which you perhaps will be able to grow with the best success. The space required for each kind of vegetables should be considered.

The rows should be plotted out and a succession or crops planned that can be handled so as to keep the garden growing something useful at all times.

These preliminary steps will be greatly appreciated as the season advances.

The accompanying drawing illustrates a plan that may serve as a working basis for almost any home garden. It has been designed for a garden 50 feet by 90 feet that will be occupied during the season, and is arranged with necessary economy of land in question. It may serve as a guide for a plot of any size.

After the plan has been made and the space arranged for the various crops, the varieties of each crop to be planted must be determined on. This is a very important step and will be discussed later on in this column.

MOTHER SHIPTON REVISED
Adapted to 1924

Women shall get a strange, odd craze
To dress like men, and breeches wear,
And cut off their beautiful locks of hair,
And ride astride with brazen brow,
As witches do on broomsticks now.
Then love shall die and marriage cease,
And babes and sucklings so decrease
That wives shall fondle cats and dogs,
And men live much the same as hogs.
In eighteen hundred and ninety-six,
Build your homes of rotten sticks;
For then shall mighty war be planned,
And fire and sword sweep o'er the land.
But those who live the century through
In fear and trembling this will do;
Fly to the mountains and the glen,
To bogs and forests and wild fen;
For tempests will rage and oceans roar,
And Gabriel stand on sea and shore,
And as he toots his wond'rous horn,
Old worlds shall die and new be born.

RESOLUTIONS OF RESPECT

Whereas: The Angel of Death has again entered our order and called our aged and honored sister, Luella Flint, to a brighter and more glorious life in the Heavenly home.
Resolved: That in her death Bear Mt. Grange has lost a highly esteemed member, one who was always deeply interested in the work of the order; a faithful member, loved and respected by all.
Resolved: That while we feel her loss to the order, we are glad to think,

Oh how sweet it will be in that beautiful land,
So free from all sorrow and pain;
With songs on our lips and with harps in our hands,
To meet one another again.

Resolved: That to any relatives we express our love and sympathy.
Resolved: That, according to our custom these Resolution be spread upon our record, a copy sent to the family and that they appear in the Norway Advertiser.

OLD DEED FOUND

J. Bennett Pike, Judge of the Northern Cumberland Municipal Court, Bridgton sends us the following deed which he has found. It is a deed of land in Waterford for the erection of a meeting house for the Methodist Episcopal church given in 1818 and has never been recorded until recently. Judge Pike believes it to be about the oldest deed ever put on record in the county and may be of interest to many. If anyone has anything of interest relating to the outcome of this deed and its history send it to the Advertiser for publication.

Mr. Jenne, an authority, is not sure about the precise location, for many old roads have been discontinued. If no mistake has been made in the lot and range, the parcel must have been a little west of Bear Pond near Mutiny Brook. Possibly some historian may be able to tell whether or not the property was ever developed.

"This indenture made this twentieth day of August in the year of our Lord one thousand eight hundred and eighteen, between Ralph Haskins of the town of Boston in the county of Suffolk and State of Massachusetts of the one part, and Josiah Shaw, Stephen Sanderson, Peter Gerry, Joseph Dudley and Moses How, trustees in trust for the uses and purposes hereafter mentioned, all of the town of Waterford in the State of Massachusetts aforesaid, of the other part. Witnessth, that the said Ralph Haskins for and in consideration of the sum of twenty dollars to him in hand paid, at and upon the sealing and delivery of these presents, the receipt whereof is hereby acknowledged, hath given, granted, bargained, sold and conveyed, and by these presents, doth give, grant bargain, sell and convey unto them the said, Josiah Shaw, Stephen Sanderson, Peter Gerry, Joseph Dudley and Moses How and their, successors (trustees in trust for the uses and purposes hereinafter mentioned,) all the estate, right, title, interest, property, claim and demand whatsoever, either in law or equity, which he the said Ralph Haskins, hath in, to or upon all and singular a certain lot or tract of ground lying in the town of Waterford and State aforesaid, being a part of lot numbered three in the fifth range of lots in said town bounded and butted as follows, beginning at the southeasterly point of a large stone where the road leading from Fryeburg to Paris comes into the road leading from Waterford to Bridgton thence running North nine degrees East one rod and nine links to a stake and stones; thence North eighty degrees West thirteen rods to a stake and stones; thence South nineteen degrees East eight rods to a stake and stones; thence North sixty-six degrees East nine rods to the first mentioned boundary containing one-third of an acre more or less. To have and to hold all and singular the above mentioned and described lot or piece of ground with all the privileges and appurtenances thereunto belonging unto them the said trustees and their successors in office, forever, in trust, that they shall erect and build, or cause to be erected and built thereon a house or place of worship for the use of the members of the Methodist Episcopal church in the United States of America, according to the rules and discipline which from time to time may be agreed upon and adopted by the ministers and preachers of the said Church at their general conferences in the United States of America; and in further trust and confidence that they shall at all times, forever hereafter, permit such ministers and preachers, belonging to the said church as shall from time to time be duly authorized by the general conferences of the ministers and preachers of the said Methodist Episcopal Church, or by the yearly conferences authorized by the said general conference, and none others (to the exclusion of the said Methodist ministers and preachers) to preach and expound God's holy word therein; and in further trust and confidence, that as often as any one or more of the trustees hereinbefore mentioned, shall die or cease to be a member or members of said church according to the rules and discipline aforesaid then and in such cases it shall be the duty of the stationed minister or preacher (authorized as aforesaid) who shall have the pastoral charge of the members of the said church, to call a meeting of the remaining trustees as soon as conveniently may be; and when so met the said minister or preacher shall proceed to nominate one or more persons to fill the place or places of him or them whose office or offices has (or have) been vacated as aforesaid. WAY TO TUNE IN AND NOT INTERFERE WITH NEIGHBOR

(Westinghouse Electric & Mfg. Co.)

Interference, its causes and results, is now a most popular topic of conversation among radio fans. Interference from any one cause or another has been experienced by every radio fan but few of them know the real reasons for this trouble and how to take measures that will assist in reducing it.

Causes of Interference

These interferences are caused by: (1) another broadcast transmitting station so close or so powerful as to make it difficult to "tune out;" (2) another transmitting station operating on a wave length so near to the one being received as to cause interfering beats at a beat frequency which is sufficiently low to bring it within the audible range; (3) a nearby amateur transmitting station operating on a spark set, or an A. C. tube set; (4) atmospheric disturbances, called "static" and particularly apt to be present during the summer months; (5) the interference of "birdies" so called on account of their supposedly bird character of sound. While there are times when quick "tweet" sounds may be heard, I have always thought that the "howling of winter winds" or the "wail of lost souls" was more truly descriptive of the sensations produced by this type of interference.

Find Proper Way to Tune In

As "birdies" is the interference produced by one listener with another, I will direct your attention to it in order that you may better understand the cause of it and adopt a plan of tuning which will cause you to interfere with your neighbor as little as possible. Remember that a radio listener tuning in late on a program can be just as much of an annoyance to those near him as can one arriving late at the theatre in the middle of an act when carelessly stumbling over things and making a lot of unnecessary noises while finding his seat.

How Oscillation is Controlled

As the tube oscillation frequency is controlled by the tuning of the set it is apparent that when the tuning of the set is changed while the tube is oscillating that the radiations sweep over that band of waves just like the note of a siren is changed as its speed is altered.

This sweeping across a wave to which someone else may be listening causes this kind of interference with them, if they are within about a mile of the offending party. In the majority of instances the operator of such a set is unaware that he or she is causing such disturbances.

You Can Be "Rude"

It is hard to believe that anyone would knowingly drag across the various wave bands to find the beat of the carrier wave of the desired station any more than one would drag their arm over the heads of the occupants of seats in a theatre in order to more easily find an empty one. Each act is equally rude although the radio tuner may for a time be excused on the score of ignorance.

What You Need to Know

You will want to know two things in your efforts to carry out such a plan of tuning: (1) how to know when your tube is oscillating and (2) how to find the distant station, for this whole practice is associated only with hunting such, without the tube oscillating.

How to Stop Oscillation

You can always tell when your tube is oscillating by a peculiar change that takes place at the beginning of oscillations. There is a slight swish or rustle as the ticker reaches the oscillation position and it should be backed slightly below the point.

Your search for the distant station should always be made with the tube near to, but always below, the oscillating point and the tuning can then be done with no inconvenience to anyone. You will recognize the station by the sounds of the music or speech, if in operation, or by a slight noise of the transmitter if you chance to hunt it during a quiet period but with the normal antenna radiations unmodulated going out.

Two Circuit Sets Bad as Single

There is a mistaken popular impression that the single circuit sets are the real offenders in this trouble and that sets having two circuits are immune from it. Such is not the case, as repeated tests have shown. A two-circuit receiving set with the tube oscillating in the second circuit, when properly adjusted to receive the maximum strength of signals, will act as a radiator of signals to just the same extent as the single circuit set.

Don't Be Impolite

The particular point that I desire to make, is that the practice of hunting a distant station with the tube oscillating is impolite and that there is no difference in this respect, between a single and a two-circuit set.

SOUTH WATERFORD

Decker Buildings Burned

During an electric storm Sunday morning between 9 and 10, the fine farm buildings of J. O. Decker at Blackguard, near South Waterford, were burned to the ground and Mr. Decker, who was in the barn working at the time was knocked down but not injured by the bolt. Hail and snow fell during the fire, and the sight of lightning flashing through the falling snow was most unusual.

Mr. Decker had turned the cattle into the barnyard and had been engaged in the morning chores and other work in the barn when he was thrown to the floor. Having seen the flash he thought it must have been lightning, and thinking that the barn might have been struck, he got to his feet as quickly as possible and went outside to look the barn over. He could see no evidence of fire and returned to his work.

A minute or two later Mrs. Decker rushed into the barn and notified her husband that the back of the barn was ablaze. He then turned his attention to saving what stock was in the barn, but the fire swept rapidly through the haymows, filling the building with dense smoke and forcing him to give up his efforts. A flock of sheep, including many young lambs, was abandoned and were lost in the fire.

The electric storm put the telephone out of commission. Mr. Decker quickly rallied and succeeded in saving practically all of the household furnishings and personal effects of the Deckers before the flames reached the house. The barn was connected with the house by a shed and ell, and with the small number of men available and the absence of fire fighting equipment the flames were unhampered in their progress through the buildings.

The roar of thunder and the flash of lightning while the snow and hail was falling gave a most unusual setting, but even with the annoyance of the snow the furnishings of the house were rapidly removed and it is thought that Mr. and Mrs. Decker lost but little in the house. Considerable farm machinery was destroyed in the barn as also a large amount of hay.

The Deckers have owned and occupied the place for many years. The loss is estimated at between $3,000 and $3,500, and there is a small insurance on the property. It is not known whether Mr. Decker will rebuild.

Mr. and Mrs Frank Shaw, who have a place nearby, opened their home to Mr. and Mrs. Decker, and they have a vacant tenement in their house which the Deckers have taken.

During the thunder storm the electric light service was put out of commission, as also part of the telephone lines in Harrison and vicinity.

NORWAY AND VICINITY

HOME NEWS FROM ST. PETERSBURG, FLORIDA

I sent card this A. M. telling of the death of W. H. Kilgore. His illness was not a painful one and he went peacefully to sleep. Good doctors and nurses in a good hospital did everything possible for him. Sunday P. M. he knew me for a minute and whispered Frank. Soon after he passed into an unconscious condition and remained so to the end. I left the hospital, Monday, just before the life went out. It was a sad event. I was glad I was here to assist what I could. At the station, when the train passed out, to pay our respects and sympathy were: Mr. and Mrs. A. R. Clark, Mr. and Mrs. G. W. Devine, A. B. Caswell, Mr. and Mrs. Sumner Hancock, Casco, Mr. and Mrs. Howard Maxim, Ernest M. Walker, Bethel, Bertha and I.

I'll be glad when I get back to good old Norway, its home, where I've had my joys and sorrows, my successes and failures, and where I've got my friends. I've had a very busy winter. That may sound strange to you, but it's so. I've been active in knowing people, the different ways of doing business, the conditions of this wonderful part of our country. I meet people from every part of the U. S.

A short time ago, with Harry Brown's people, we went to Clearwater, a beautiful town some 28 miles from here. Sitting on a bench a man sat down near me. It is my custom to speak to strangers when I think it prudent so I spoke and received a pleasant reply. After talking of Florida and events of the times, I soon learned he was a tourist. I asked if he was from the North. He said, "Yes, from New York." Every place is up North down here from Georgia to Alaska. After a little he asked me, "Where are you from? "From Maine," I replied. "From Maine," he said. "Glad to see you," and shook hands. He asked me what place in Maine. "Norway," I said. He said "I never was in Norway but know it is a wonderful place. My name is C. G. Phillips, Montclair, N. J. My place of business New York. Interested in 24 publications. Publish the "Boot and Shoe Recorder." E. B. Terhune is a personal friend of mine. He has told me so much about Norway, Maine; its beautiful lake, wonderful scenery, and fine people. I just want to go there, and intend to."

This is just an instance with many other kinds so one can keep busy and learn something.

The winter is passing and people are rushing home. In a hurry to get off the train when they come. In a hurry now to get on the train as they go. Its interesting to watch all kinds of people as they rush through this life.

Oh, I omitted to say, Mr. Phillips said he met the late Waldo Nash at the Sportsman's Show in New York and was much interested in him and his exhibit.

Saturday, March 22, 8.30 A. M., Mr. and Mrs. Harry Brown and two boys, Mr. and Mrs. Augustus Andrews (Lovell), Mr. and Mrs. Melvin Wilbur and son, 9 in all, left for the North in autos. About 2,300 miles, Mr. Brown told me, which they hope to cover in about 16 days.

Sunday, March 23, Mr. and Mrs. Seavey and Paul started. Mrs. Seavey told me she would take the train at Jacksonville.

In all, 16, that came here in the early winter from Norway and nearby towns have left. We miss them.

The Devines and Hancocks expect to start North about the middle of April, overland. The Caswells expect to stay until the first of May.

Mr. and Mrs. Howard Maxim plan to stay here through the summer and another winter. Howard has a good job and they both like here.

Mr. and Mrs. A. R. Clark plan to go North the first of May.

Yes, I read Morton's trip to Ketchum with much interest. No one can understand what a trip like that means, only those who have been over the road. Harking backward, you, Willie William and I recall those happy days, of an all day trip to Stillman's. Our lunches by the wayside, feeding and watering the tired horses, etc. We can undertsand. I wonder if the generation of today enjoy the good fellowship, the good friendship of those days.

Next Tuesday, April 1, we plan to leave St. Petersburg. Will go to Tampa by boat, 40 miles. Expect to stay there a few days, stopping at several places expect to arrive home the last days of April.

Met Eben Fox on the street today. He said it was the first time he had been out alone. Claims to be getting on fine. His wife is sick in bed. She hurt her knee and has it in a cast. Mrs. Brown, mother of Benj. Brown, is a sick woman. It is doubtful if she recovers.

FRYEBURG

Summary of Basketall Season, Fryeburg Academy

Fryeburg Academy started its basketball season with an unsuccessful trip to Conway, N. H. Kennett High proved to be much faster than was expected and won 33-25. Gilmore was the Fryeburg star with Chandler and Garland for Kennett.

Fryeburg's next game was an easy win over Fryeburg Town Team 36-12. Gray showed up well with eight baskets to the Academy's credit.

The next victim was Whitefield High of New Hampshire. This seemed to be a contest for fouls, sixteen being called on Whitefield and ten on Fryeburg. There were no outstanding stars, each player having one to three goals to his credit. Score, F. A. 21; Whitefield 10.

The next game was a win over the strong Bridgton Academy quintet by a score of 34-12. The Bridgton team was unfamiliar with a small floor and missed many shots. Gray of Fryeburg starred with sixteen points to his credit.

Brownfield fell before Fryeburg 23-1. The game was more interesting than the score would indicate, Brownfield fighting hard until the last. Warren secured the only tally for Brownfield. The whole Fryeburg team played consistently. Fryeburg again proved too swift for Whitefield, winning 15-10. Very few fouls were called and the game was fast and clean.

Bridgton Academy walloped Fryeburg Academy in great style 50-30. Lack of condition and team work accounted for a large majority of the loss. Plenty of penalties occurred and the game was inclined to be somewhat rough.

Disgusted with their recent trimming, Fryeburg was "a-rearing to go and go they did" winning from Bridgton High 48-31. Any team should be proud to play such a clean sportmanlike bunch of fellows.

Fryeburg lost to Kennett 32-24. Again lack of condition and over-confidence played us false. Billy O'Connell of Portland was referee and the game was played fairly. Gray and Buzzell starred for Fryeburg with Chandler and Garland for Kennett.

Fryeburg was chosen to compete in the Maine Tournament but Fryeburg was the one who picked Milton Academy the Tournament champs.

This was one of the most successful seasons the Academy has known for years. The following men have won their letters, Capt. J. Buzzell, Manager C. Hill, L. S. Gray, M. Keefee, E. Adams, R. Gilmore. Others who have worked well are R. Ballard, L. Buzzell, L. Gray, S. Quinn, B. Paige and E. Leadbeater.

Tobias L. Eastman, a Veteran of the Civil War, and practically all his life a resident of Fryeburg, fell on the steps at his home, Tuesday, and broke his hip. It is feared it will not be possible to set the bone. Mr. Eastman is 80 years of age. His numerous acquaintances and friends extend much sympathy.

Mrs. Seymour Farrington of Lovell, but who has made her home in Fryeburg for several years, died last week at the home of her brother, James Hobbs, aged 73 years.

Miss Hattie Pike, who teachers music and painting in Boston, is at "Ye Inn" for a brief vacation.

Mrs. W. R. Tarbox who has been in Portland for medical treatment returned to her home, Thursday. Mrs. Tarbox is still confined to the house.

Mrs. B. T. Newman remains in a critical condition.

Mrs. Sarah F. Ladd was in Portland two days last week purchasing new goods for her store.

Charles Harriman was in Portland, Wednesday, to see his doctor.

Mrs. Herbert Hodsdon has returned from Ossipee.

Lamyer Virgin from Portland was in Fryeburg last week consulting with D. J. Johnson, who has the contract for Mr. Virgin's house.

Fryeburg hears rumors of a new clothing store also a new grocery store. Both seem superfluous at present.

Toll Bridge

Miss Sylvia Wyman, the Toll Bridge eacher, returned Saturday afternoon from her home in Waterville. School began Monday.

Callers at Mrs. G. McAlister's the past week were, Ed. Ela of Fryeburg, Leah Buzzell of North Fryeburg, who is working for Mrs. Bessie Barker, Mrs. Nellie Walker, Mr. and Mrs. Louis Charles of West Fryeburg, Mrs. Will Richardson and children Ned and Mae, Fred and Carolyn Hill.

Miss Annie Richardson spent several days the past week at Fryeburg Harbor with her aunt, Mrs. Evelyn Wales.

Daphine Barker is at home during her vacation from Fryeburg Academy.

Carolyn Hill visted her cousin, Louise Head, at Fryeburg Academy, several days the past week and attended the drama, "Me and Otis," presented by the Seniors of Fryeburg Academy.

Roland McAlister spent the week end at Chatham, N. H. with his cousin, Kenneth L. McAlister.

Our Store Has Taken On Its Spring Appearance

Not in any former year or season during this store's existence have any better preparations been made for the Spring season. We have often made a similiar statement regarding the opening Spring exhibits and it has been wholly true each time. It is only the natural growth that would be expected of a store conducted under like principles. Namely, merchandise of worth, fairly priced, and constant, faithful endeavors to serve in the most pleasing and satisfying manner.

Not only in quantity of merchandise assembled, but the broad representation of that which is known to be of choice products, in every instance bearing an unmistakable stamp of reliability and high type of perfection in all details. It is with unconcealed pride that we invite attention and thoughtful examination of the truly splendid stocks that are now on exhibition.

On will need to carefully examine the merchandise in all departments to really understand the worth of this enterprise as a Norway institution.
